

A big plus

Invitation Artiplus expert panel

We are delighted to invite you to join our Artiplus international expert panel.

Artiplus is our new flagship IOL, designed to correct presbyopia in phakic patients. Artiplus isn't just another lens. It's a big plus in refractive surgery, showcasing impressive clinical results. Due its ingenious optic, we can help a younger generation (40-60 years old) to achieve exceptional quality of vision at all distances and become spectacle independent.

Be a pioneer in Presbyopia correction

Within the expert panel you are part of an international group of doctors and first users leading the way in presbyopia treatment with Artiplus. Get all the insights you need and share field experiences with fellow experts.

- **Exclusive network:** Collaborate with a prestigious group of international presbyopia experts.
- **Be the first to know:** Get early insights into studies, in-depth discussions, and market updates.
- **Bi-annual meetings:** Participate in 1 physical and 1 online meeting a year to stay connected.
- **Direct access:** Connect with Ophtec's clinical and product specialists directly.
- **Take the stage:** Support with studies, presentations or abstracts.
- **And more!**

Experts meet at ESCRS

During the ESCRS in Barcelona, Prof. Dr. Güell, former presidents of the ESCRS and lead investigator of our Artiplus clinical study, invites you to a special evening at his hospital. We'll discuss clinical experiences and results, explore the optical principles, and dive into market possibilities together. This evening marks the start of the Artiplus expert panel.

Date: Monday September 9 2024

Time: 6:45 PM - 9:00 PM

Place: IMO Hospital Barcelona

Including drinks and tapas!

IMO Institute of Ocular
Microsurgery
Josep Maria Lladó, 3
08035 Barcelona

Yes, I want to join!
